

EFFICIENCY  
MANITOBA

# HELLO, EFFICIENCY MANITOBA

Efficiency Manitoba is Manitoba's newest crown corporation devoted to energy conservation. Our goal is to make saving energy and reducing your energy bills easy, affordable, and satisfying. We want to collaborate with you, our fellow Manitobans, to identify your needs and how we can fulfill them.

This is the beginning of something new, exciting, and innovative—and we're just getting started.

# **THE BENEFITS OF ENERGY EFFICIENCY**

# WHAT ENERGY EFFICIENCY MEANS

Energy efficiency means:

- using less energy to perform the same task
- eliminating energy waste

Energy efficiency in the home means:

- Having a more comfortable home (lighting, noise, temperature, durability and air quality) while lowering the energy required to accomplish this comfort

Energy efficiency in a business home means:

- Maintaining the same product / service quality while lowering the energy required to deliver

# ECONOMICS OF ENERGY EFFICIENCY

- Investment in energy efficiency provides stable, long term returns
- Energy savings can be re-invested into the home or business
- Energy efficiency creates local employment
- *Energy Efficiency is the lowest cost energy resource*

# OTHER BENEFITS OF EFFICIENCY

## Environmental Benefits

- Reduces GHGs directly - natural gas savings
- Reduce GHGs indirectly - energy efficiency has the lowest lifecycle GHG intensity when compared to supply-side options (including hydro, wind, solar)
- Reduced water consumption
- Promotes waste reduction
- Promotes recycling

## Social Benefits

- Employment
- Improved home or building comfort, air and/or lighting quality
- Increased productivity in businesses
- Increased property values
- Reduced maintenance costs

# **PROGRAMS AND OFFERS**

# INCOME QUALIFIED PROGRAM

Free or subsidized energy efficiency upgrades for income qualifying households

**FREE HOME ENERGY CHECK-UP**

**NATURAL GAS FURNACE UPGRADE**  
\$9.50/MONTH FOR 5 YEARS

**FREE ENERGY SAVING DEVICES**

**FREE INSULATION**

**NATURAL GAS BOILER UPGRADE**  
\$3000 REBATE

# INCOME QUALIFIED PROGRAM - ELIGIBILITY

Single or semi-detached homes occupied year-round. Multi-Unit Residential Buildings may qualify for basic energy efficiency items only.

Occupants have a total household income (before deductions) that meets or falls below the limits in the table to the right.

If non-profit housing providers require their tenants to income qualify, they may bypass the income qualification process for each household by providing their mandate, lease agreements, tenant handbooks or proof that their tenant's rent is below the Manitoba Housing set Median Market Rents.

Number of People	Total Income
1 person	\$33,033
2 people	\$41,124
3 people	\$50,556
4 people	\$61,383
5 people	\$69,619
6 people	\$78,518
7 or more people	\$87,419

# RESIDENTIAL PROGRAMS – IN-SUITE
